- As Reported by Exporters

Outstanding export sales as reported by private exporters and compiled with other data in this release give a snapshot view of the current contracting scene. At any given time in the course of a marketing year outstanding sales do not bear a consistent relationship to eventual export shipments. A meaningful export projection is not obtainable by the simple device of adding outstanding sales to exports to date. The latter data, alone, may provide a more reliable measure of current export activity than may be derived from a year-to-year comparison of outstanding sales.

EXPORT SALES REPORT

Comments on release of July 1, 1976 (based on reports from exporters for the week ending June 20, unless otherwise noted):

Wheat: The apparent export commitment (cumulative exports plus outstanding sales) for 1976/77 (year beginning June 1) advanced by 444,700 metric tons (MT), bringing this year's total commitment to 6.8 million MT. This week's total increase in commitments included 72,200 MT to the USSR, which largely reflects transfers from optional origin rather than new sales. Some of the significant increases in commitments were to Nigeria, 154,400 MT; the European Community (EC), 99,100 MT; and Japan, 80,600 MT. These increases were partially offset by the decline in wheat commitments to unknown destinations of 41,400 MT. This week's new sales to Nigeria have pushed total commitments to that country to 238,000 MT, compared with total U.S. wheat exports of 421,600 MT to that country during the 1975/76 marketing year. Total wheat commitments for the year to the EC and Japan now stand at 617,600 MT and 621,500 MT, respectively.

Feedgrains: The apparent export commitment for corn for 1975/76 (year ending September 30) advanced by 964,600 MT, of which 120,900 MT were to the USSR (these reflect transfers from optional origin rather than new purchases by USSR authorities). This week's increase in corn commitments, the largest since the week ending May 9, 1976, brings the total commitment for the year to 40.7 million MT, compared with 29.4 million MT for the corresponding period a year ago. Corn commitments to the EC increased by 642,700 MT, the largest weekly increase this year. Some of the other significant increases in commitments were to Japan, 96,400 MT; Spain 96,000 MT; and Taiwan, 50,000 MT. These increases were partially offset by declines in commitments to East Germany and unknown destinations totaling 149,500 MT. Corn commitments to East Germany for 1975/76 shipment have declined in recent weeks, but have been offset by increases in commitments to that country for 1976/77 shipment. Grain sorghum commitments advanced by 29,200 MT, bringing the total commitment for the year to 5.0 million MT, compared with 5.4 million MT at this time last year. Commitments to Japan accounted for all of this week's increase. Commitments of grain sorghum to Japan for 1975/76 now stand at 2.1 million MT, about two-fifths of total commitments to all destinations.

Outstanding sales of corn for 1976/77 shipment (year beginning Oct. 1) increased by 87,300 MT, bringing the total for the year to 5.3 million MT, compared with 2.7 million MT for the same period a year ago. Advances in sales to Japan and East Germany accounted for almost all of the increase, although declines in sales to unknown destinations offset part of the total increase.

Soybeans: The apparent export commitment for 1975/76 increased 144,900 MT, primarily reflecting larger commitments to Japan, the EC, and Korea. Taiwan cancelled purchases of 44,000 MT, and commitments to unknown destinations declined 36,300 MT.

Exports during the week totaled 348,100 MT, primarily to the EC (182,200 MT), Japan (86,800 MT), Spain (24,800 MT), and Romania (21,100 MT).

Soybean exports from China (PRC) to Japan are projected to be down from an annual level of 200,000-250,000 MT to between 100,000-125,000 MT this year. Exports are also expected to drop correspondingly to Finland and Romania. Last year, the PRC exported about 20,000 MT of soybeans to each country.

Soybean Oilcake and Meal: The apparent export commitment for 1975/76 increased 70,500 MT, primarily reflecting larger commitments to Poland, France, Yugoslavia, and the Netherlands. Commitments to West Germany and unknown destinations declined. Exports during the week totaled 70,100 MT, primarily to France (29,700 MT), Yugoslavia (19,700 MT), and Poland (10,900 MT).

Cotton: Cotton prices continued to advance and sales were light with the outlook for larger mill consumption and tight supplies. Textile mills in Italy are now operating at near capacity while stocks are running low; Korea is expected to import at least one-third more this season than the average of the previous three seasons; and prices are being bid up in Brazil, Pakistan, and India which all foresee higher mill use and the possibility of more limited supplies.

The net export commitment increased 57,000 running bales, 37,000 for shipment during the current year and 20,000 for shipment during 1976/77. The Republic of Korea and Japan were the largest buyers.

Data may not add due to rounding.

Total upland cotton exports decreased by 14 percent with 2,801 thousand running bales exported in MY 75/76 (as of June 20, 1976) compared with 3,249 thousand bales for the same period last year. The smaller U.S. cotton crop in MY 75/76, along with the slow economic recovery in Western Europe and Japan and high prices relative to other growths for much of the crop year, were the major contributors to lower exports.

Asian countries increased their imports of U.S. Cotton for MY 1975/76 to 1,419 thousand bales from 862 thousand bales last year. The Republic of Korea almost doubled its U.S. cotton imports - with a total of 820.5 thousand bales. Other countries that helped offset the drop in the European imports of U.S. cotton were Indonesia, Bangladesh, and Thailand with 220,139, and 54 thousand running bales, respectively.

THE CCC EXPORT CREDIT SALES PROGRAM (GSM-4)

The objective of the CCC Credit Program is to maintain and develop markets and increase U.S. commercial sales.

The extension of credit up to a maximum of 36 months for commodities in ample supply has helped to accomplish this objective. Authority for the program is 15 U.S.C. 714C and 7 U.S.C. 1707a.

The Table below summarizes the value and quantities of exports (disbursements) financed under the program during the FY 1976 to date, broken down by country of destination and commodity, in order of total descending value.
